Subject: RE: Sustainable Sandhills (Briefing on ACP Report)

Jeremy,

Julia and Jenni were supposed to be attending this meeting with you, but both have been scheduled into a conference call with Kristi during this time. Since we've already rescheduled once, I'm hesitant to try and do that again. Is it okay if just you (and maybe Alex) meet with them? They're presenting a report on the economic impact of the ACP.

We could include someone from DEQ if you want.

Subject: Sustainable Sandhills (Briefing on ACP Report)
When: Friday, December 15, 2017 10:00 AM-10:45 AM (UTC-05:00) Eastern Time (US & Canada).
Where: Governors-Conference-DOA-Room-1143

Gov. Declined. Report attached.

Hanah Ehrenreich, Executive Director, Sustainable Sandhills, will be coming to present the report on the economic impact of the ACP. Accompanying her will be Dr. Sarah Taber who authored the report.

"Sustainable Sandhills has commissioned an economic impact study on the proposed Atlantic Coast Pipeline. We have grave concerns that the estimated economic benefit of this project has been overstated by ACP, LLC and that opportunities are being overlooked for North Carolina to keep more energy production dollars in the state by investing in cleaner, local energy generation."
